

Team Collaboration

Participants: Caius Gibeily, Anneleen de Ruiten, Yaxuan Kong

Manchester Collaboration (Caius Gibeily, Anneleen de Ruiten, Yaxuan Kong): Met with Manchester to decide on how to contact stakeholders. Sent out linked in messages to potential stakeholders.

Hainan China Team Collaboration (Yaxuan Kong): sent out project description and explained what we did.

Funding

Participants: Isobel Guthrie, Anneleen de Ruiten, Laurence Seeley, Bradley McCallion, Poli Foteva, Yaxuan Kong

Fundraising meeting with a focus on completing the crowding funding requirements; team subsequently completed the sections.

Synthetic Biology Forum

Participants: Bradley McCallion, Poli Foteva, Megan Fletcher

Forum discussion - Had three almost certain speakers; decided on the topics, what to include in the wiki and how to advertise the forum; Bradley McCallion had some ideas about platforms to be used and schedule of the event.

Market research

Participants: Anneleen de Ruiten, Laurence Seeley, Bradley McCallion, Poli Foteva, Yaxuan Kong

Team met and generally discussed how we go about starting/extending this further

Kill switch

Participants: Laurence Seeley

Determined sequence of promoter for glucose-dependent kill switch and CAP binding site. Evaluated all other light sensing options as a replacement for UirS/UirR.
