

## **Gene Circuit**

**Participants: Laurence Seeley, Caius Gibeily**

Created SBOL for all UV sensing components (UirS/UirR).

## **Video**

**Participants: Isobel Guthrie, Bradley McCallion, Anneleen de Ruiter, Laurence Seeley**

Promotional video meeting working on the videoscribe and fine-tuning adjustments -> making major progress now.

## **Team Collaboration**

**Participants: Isobel Guthrie, Laurence Seeley**

Wrote first draft for the poster – possibly to submit to the German iGEM meetup.

## **Reef Conservation Case Study**

**Participants: Yaxuan Kong, Poli Foteva**

Created questionnaire on Qualtrics. Set up a collaboration with Australian team – possible zoom call and shared slack channel between us.

## **Modelling**

**Participants: Bradley McCallion, Caius Gibeily, Laurence Seeley**

Worked on UirS/UirR shinescreen model to complement constitutive approach and justify the design. Maths biology tutorial discussed Dr. Sfakianakis ideas for macroscopic modelling.

## Wiki

**Participants: Yaxuan Kong, Issac Li, Bradley McCallion**

Started working on other sub-pages. Researched about the scale and pixels on different devices. Debugged code and added comments for explanation in later meetings.
