Met with Thomas Storey who is recent graduate and a training patent lawyer in about patent possibility. Team asked questions to clear the application procedure.

Market Research

Participants: Bradley McCallion

Begun to look into existing products and existing patents similar to our ideas. Researched helioguard, their people and their product concept for questions we may be able to ask from them.

Video

Participants: Anneleen de Rooter

Edited the video more which included people's suggested improvements. combined everything on imovie and exported the video.

Team Collaboration

Participants: Laurence Seeley

Paris: Filled in form for Paris Bettencourt collaboration.

Gaston Day School: Researched around Gaston Day's modelling problem.

Modelling

Participants: Laurence Seeley, Bradley McCallion, Caius Gibeily

Team met with Supervisor Chris to discuss general modelling. Laurence Seeley created parts and drew up design for kill switch mechanism, and researched more into ccdAB mechanism and Magnets OCS. Bradley McCallion looked over mathematical models for bacterial mutations, bacterial growth and a statistical approach, and growth in microscale patchy landscapes.
