

Team Collaboration

Participants: Anneleen de Rooter, Yaxuan Kong, Poli Foteva, Megan Fletcher

Manchester (Anneleen de Rooter, Yaxuan Kong, Poli Foteva, Megan Fletcher): Had meeting with Manchester, discussed possible stakeholders we could interview together

UNSW Sydney (Soo Bynn Lee): Sent out email to the UNSW team again, asked to set up Zoom meeting and informed them of the finalised survey waiting on ethical approval.

Twitter Sentiment Analysis

Participants: Isobel Guthrie, Yaxuan Kong, Laurence Seeley, Bradley McCallion, Poli Foteva

Discussed keywords and aims of the analysis. Possible link to reef conservation case study and comparison of mention of reefsafe/skin cancer between Queensland and Hawaii. Also discussed how to optimise our search filters in getting twitter sentiment analysis data.

Synthetic Biology Forum

Participants: Soo Bynn Lee

Researched for possible platforms for the forum that are not Zoom. Demio and JetWebinar seem like viable options

Bio-Safety Modelling

Participants: Caius Gibeily, Isobel Guthrie

Caius Gibeily started compiling assumptions for a mini-HGT model. Considered to deliberate with Isobel to expand model further.

Macroscopic Modelling

Participants: Bradley McCallion, Laurence Seeley, Isobel Guthrie, Yaxuan Kong, Caius Gibeily

Bradley explained the progression of the model and what needs to be changed/researched further. Need to research into the gel and its properties.
