

Logo Design

Participants: Isobel Guthrie, Bradley McCallion

Further discussed logo design implementing a 'benzene ring approach'.

Isobel Guthrie work:

Modelling

Participants: Poli Foteva, Isobel Guthrie, Yaxuan Kong, Issac Li, Soo Bynn Lee, Bradley McCallion, Anneleen de Ruiter, Caius Gibeily, Laurence Seeley

Created a set of differential equations of shinorine production for model. Outlined key intermediates and found the shinorine pathway enzyme sequences and their respective lengths.

Looked at bioaccumulation research and modelling ideas for environmental modelling aspect.
