

Gene Circuit

Participants: Caius Gibeily, Laurence Seeley

Continued design of experimental procedures for shinscreen transformation. Compiled theoretical primers for the reaction. Evaluated 12 other iGEM teams' experiment using the lambda red recombineering method. Also looked at Gibson Assembly and E.coli Nissle 1917 as a non-pathogenic strain.

Social Media

Participants: Bradley McCallion, Laurence Seeley

Worked on the LinkedIn in covers from everyone's promotional video thumbnail segments. Worked on the next Instagram post.
