

App Development

Participants: Caius Gibeily

Caius Gibeily improved app; uploaded code. Tried to implement better image importer to improve image quality from `getBitmap()` to `Uri` and data-saving.

Twitter Sentiment Analysis

Participants: Isobel Guthrie, Yaxuan Kong, Poli Foteva

Discussed twitter sentiment analysis - coding, what key words to look at and what are the aims of our analysis.

Outreach

Participants: Poli Foteva

Worked for the presentation about Scottish microbiome project and antibiotics resistance

Team Collaboration

Participants: Yaxuan Kong

Collaboration with Hainan China team

Environmental Modelling

Participants: Isobel Guthrie, Yaxuan Kong, Laurence Seeley, Caius Gibeily

Discussed environmental modelling. Team decided to take slightly different approach and tried to model a diffusor rather than the entire system.

Macroscopic Modelling and Gene circuit design

Participants: Laurence Seeley, Bradley McCallion, Caius Gibeily

Looked at diffusion rates of gels/bacteria, waterproofing of gel and adhesion/gravity more important to diffusion. Determined CDS for apFAB655 BCD RBS. Glucose-Sensing Toggle Switch - AT design.

Wiki

Participants: Yaxuan Kong, Issac Lee, Bradley McCallion

Yaxuan Kong asked Issac some wiki related questions; deciding navigation bar and subtitles.

Bradley McCallion learned some Java script for wiki.
