

Synthetic

Biology Bingo

C a ² L F

How many base pairs are in E. coli genome?

What is a plasmid?

Centrifuges are used to _____

How many GMO crops are OK for sale in the U.S.A?

Tool used to move bacteria

When did iGEM start?

United States department of government that regulates GMOs

What does the bla gene code for?

What is LB made of?

Dr. Cooper is building a synthetic _____ genome

Our project will help what type of farms?

_____ pairs with T

GFP stands for

Which iGEM team member talked the most?

What does iterate mean?

How many teams competed in the 2019 iGEM Competition?

Name two iGEM values

First step in the engineering design cycle

_____ pairs with G

Why do we standardize DNA parts?

Define transformation

Molecular scissors are _____

What project category does our project best fit into?

When is the 2020 iGEM Giant Jamboree?

GOSTEM 2020

Synthetic Biology Bingo
