

Gene Circuit

Participants: Laurence Seeley

Looked at Dr. Helder Ferreira meeting notes and did some research. Began crafting a document for this, for which parts can be taken to the wiki. Optimised codons for all necessary gene constructs.

Twitter Sentiment Analysis

Participants: Caius Gibeily, Yaxuan Kong, Poli Foteva, Isobel Guthrie

Discussed priorities for Twitter sentiment; Caius signed up for enterprise account.

Video

Participants: Isobel Guthrie, Anneleen de Rooter, Laurence Seeley, Poli Foteva, Yaxuan Kong, Megan Fletcher

Had team video meeting, Anneleen de Rooter showed here progress to everyone and asked suggestions.

Synthetic Biology Forum

Participants: Poli Foteva

Found the contacts of Dr Petrova who works on viruses and immunology.

Graphic Design

Participants: Megan Fletcher

Did quick drawing-cute shinorine!

Funding

Participants: Soo Bynn Lee

Did further research on coral adoption organisations and sent out email to Coral Gardeners for possibility of decrease in the rate to adopt a coral for the crowdfunding websites.

Wiki

Participants: Bradley McCallion, Issac Li, Yaxuan Kong, Isobel Guthrie

Discussed potential of synthetic biology forum webpage and how collaboration would work, general catchup and discussed website design for meetup.
