

Gene Circuit

Participants: Caius Gibeily, Laurence Seeley

Further researched kill switch mechanisms and updated gene circuit slide on UK presentation.
Updated the safety form with additional gene circuit changes.

Met to discuss plans for the UK iGEM meetup further: divided attending teams into groups for breakout rooms based on their given project ideas and discussed aspects of our own presentation. Sorted a schedule, slides and chose speakers.

Met to edit ethical approval forms for submission.

Environmental Modelling

Participants: Poli Foteva, Isobel Guthrie, Yaxuan Kong

Estimated the number of tourists in Hawaii from available 1999-2019 data. Used Hawaii governments own prediction of 2020-2023 impact of COVID to inform model and extrapolate possible trend.

Wiki

Participants: Issac Li, Bradley McCallion

Looked over wiki page so far and tried to resolve compatibility issues with iGEM server vs visual studio.
