

Patent Lawyer Meeting

Participants: Poli Foteva, Isobel Guthrie, Yaxuan Kong, Anneleen de Ruiter, Laurence Seeley

Team had a pre-patent prep meeting, and afterwards a Patent meeting with Paul Misselbrook and Fran Salisbury from Mewburn Ellis. Learned a lot about public disclose that we need to consider, as well as presentation with the brand, design and technology protection and why they're needed.

Team Collaboration

Participants: Isobel Guthrie, Anneleen de Ruiter, Yaxuan Kong, Poli Foteva

Met with Manchester to discuss stakeholder interviews and come up with questions

Environmental Modelling

Participants: Isobel Guthrie, Bradley McCallion, Yaxuan Kong, Poli Foteva

Discussed environmental modelling with Bradley - he had some really good suggestions for the diffusor model using a different approach that we had considered

Kill switch

Participants: Laurence Seeley

Looked at nucleases for kill switch - thinking an endonuclease/cas system best. Brief look at Lon protease - will do more tomorrow on this. Determined strengths for promoters and RBS for all components of 2 plasmids, specifying from the registry for each.
