

Gene Circuit

Participants: Caius Gibeily, Laurence Seeley

Formed a method section for synthesising the UirS-UirR sensor which works and meets assembly standards for Biobrick registry. Attended summer webinars on molecular biology: measurement and modelling.

Synthetic Biology Forum

Participants: Poli Foteva, Isobel Guthrie, Soo Bynn Lee, Bradley McCallion, Anneleen de Rooter, Laurence Seeley

Researched possible professors to invite to the forum. Thought of possible forum topics (GMOs) and whether this would inspire ethical debate.

Video

Participants: Poli Foteva, Isobel Guthrie, Soo Bynn Lee, Bradley McCallion, Anneleen de Rooter, Laurence Seeley

Continued with the promotional video and researched around what editing software to use.

Outreach

Participants: Yaxuan Kong, Issac Li, Poli Foteva, Isobel Guthrie, Soo Bynn Lee, Bradley McCallion, Anneleen de Rooter, Laurence Seeley

Outreach and educational activity meeting for Antibiotics Under Our Feet (AUOF).

Reef Conservation Case Study

Participants: Poli Foteva, Yaxuan Kong

Continued case study working on questions and educational paragraph.

Environmental Modelling

Participants: Poli Foteva, Isobel Guthrie, Yaxuan Kong

Environmental modelling meeting to discuss estimate numbers of visitors, concentration of chemicals put into the oceans and how we are going to model the system step by step.
