

UK iGEM Meetup

Participants: Megan Fletcher, Poli Foteva, Isobel Guthrie, Yaxuan Kong, Issac Li, Soo Bynn Lee, Bradley McCallion, Anneleen de Ruiter, Caius Gibeily, Laurence Seeley

Preparation in the morning discussing the slides and hosting separate meetings to make sure sections were complete and accurate. Then rehearsed the presentation and the meetup before 2pm.

2pm: UK iGEM Meetup! Went very well, lots of collaboration opportunities available with Manchester, UCL and Gaston Day (Mentoring with the mathematical modelling a possibility).

More of a human practice focus with Manchester as our projects are very similar – may work best?
